**Courtbinder.com** is a **new** online tool. It merges multiple PDF files into one paginated and sorted file, with an optional table-of-contents. It is perfect for bundles-of-authorities and for exhibits, and it can even generate text for a draft affidavit. Once you receive the resulting file, you just need to click “print”.

Try it for **free** it at <https://www.courtbinder.com>. Any feedback on this new service is welcome!

*Courtbinder.com* will **save time** and **eliminate errors** when counsel or solicitors prepare:

- correspondence bundles for registrar directions.
- bundles of authorities for hearings.
- exhibits and affidavits.
- attachments to letters of advice or expert reports.
- subpoena packets and discovery lists.
- Briefs.

Try it now, and forward this to your instructing solicitors for their use.
