**Program Description:** The panel is deviating from standard seminar practice and will be presented in a contradictor format with a Moderator who will present questions to the panelists and require them to defend their opinions. Questions will include: (1) what Australian and United States lawyers can learn from each other; (2) what is LPM and how is it being used in the United States to improve the delivery of legal services and prepare a more reliable estimate of fees; and (3) whether the same methodology can be used in Australia to help successful litigants recover their legal fees.
