

International Humanitarian Law (IHL) Fundamentals Course

Photo credit: ICRC / Boris Heger

Saturday 19 March
9.30am–4.30pm

IHL and Red Cross are inextricably linked.

This seminar introduces members of the general public to IHL. What are the Geneva Conventions and their Additional Protocols, and how were they developed? What are the activities and modus operandi of Red Cross in times of armed conflict? What do the red cross, crescent and crystal emblems mean? How do the military apply these rules in a combat zone? What happens when IHL is breached? Begin to explore these concepts and other international issues associated with armed conflict.
