

Cisco Court Cast – Allowing Microphone and Camera Settings in Google Chrome

1. From within Chrome, click on the ellipsis and go to Settings

2. On the left menu Choose Privacy and Security
3. Then from the options on the right choose Site settings
4. Find `join.federalcourts.gov.au` from the list and click the arrow to expand the options

5. Using the down arrows, enable Camera and Microphone (Setting = Allow)

6. The settings save automatically, you can now close Google Chrome.

Cisco Court Cast – Corporate Networks and Firewall Issues

Please provide this document to your IT Administrators who can proactively assist in troubleshooting access issues.

The contents of this document have been sourced from an official Cisco Support [page](#).

WebRTC app:

If you have a compatible WebRTC browser (For a list of supported browsers and versions, see [Cisco Meeting App for WebRTC Important Information document](#)) allow the following outgoing ports.

Web Bridge

- 80 outgoing TCP - HTTP (optional for HTTP to HTTPS redirect)
- 443 outgoing TCP- HTTPS

TURN server

- 3478 outgoing UDP - STUN Signaling + Tunneled Media
- 50,000-51,000 outgoing UDP - Media (Optional for best performance)

Alternative Option:

Alternatively, use a standalone internet connection (for example, hotspot from mobile, non-corporate network, etc.)

Test speakers

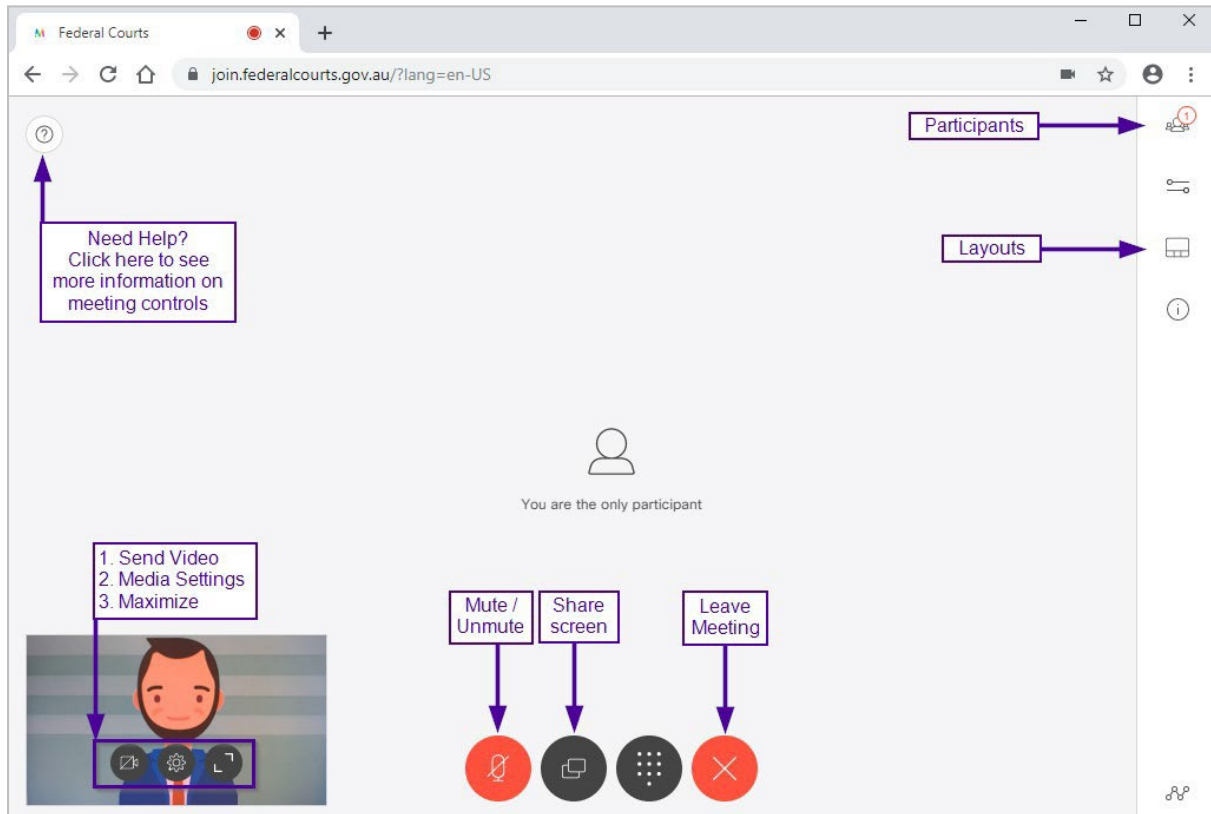

Cancel Join meeting

5. Using the drop down menus to select your preferred Camera & Microphone.
6. Select the  button to mute/unmute before entering the meeting. When the icon is **Red**, this indicates the microphone is now muted.
7. Once your preferences have been selected, select **Join Meeting**

Meeting Controls

Once you have joined the meeting, you will be presented with the following screen and options.

View participants

Click to see a list of participants in the meeting. The number next to the icon indicates the total number of participants who are currently active in the meeting.

The icons next to the participant's name in the list indicate the status of a participant:

- the participant is muted.
- the participant has connectivity issues.
- the participant is speaking or their background audio can be heard.
- the participant is sharing their screen.

View Meeting information

Click to see meeting information (duration, dial in number, etc)

Change the layout for video and presentation

Click  to choose your preferred layout for video and presentation. There are multiple layout options. Your selection will only change the layout of what you see.

 All Equal	<p>All Equal view allows you to see up to 25 participants at the same time. This layout is useful when you want to see multiple speakers or want to collaborate with a larger group of participants.</p>
 Speaker Large	<p>Speaker Large view displays whoever is speaking in the primary video, while allowing you to see up to five smaller windows of other participants. This video layout is useful when you intend to focus on the active speaker but still want to view the videos of other participants.</p>
 Speaker Only	<p>Speaker Only view displays whoever is speaking in the primary video. This video layout is useful if you only want to focus on the active speaker.</p>
 Audio Only	<p>Audio Only turns off your camera so you are not sending video. Audio Useful if you are having issues with video and sound.</p>
 Presentation	<p>Presentation view can only be used when content is being shared. It will only display the shared content on screen, no other participant videos will be visible to the user.</p>
 Presentation and Video	<p>Presentation and Video view can only be used when content is being shared. It will display any shared content on screen while allowing you to see up to five smaller windows of other participants below.</p>

Selfview window

If your video is enabled, selfview shows the video you are sending to other participants. You can do the following:

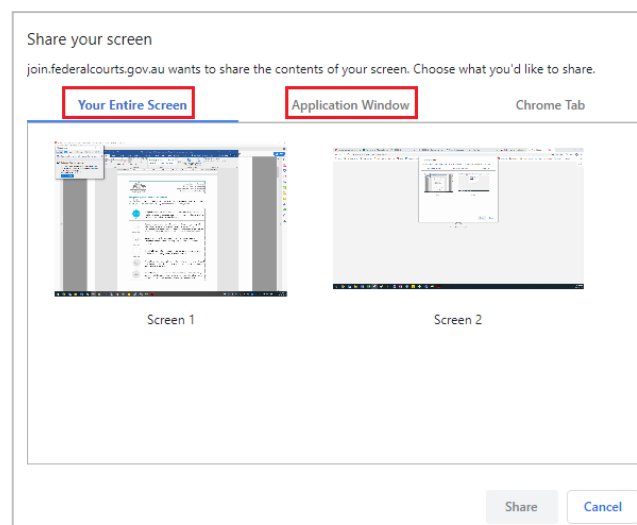

- Click  to stop sending video, the icon changes to red. You can still see video from other participants. Click again if you want to start sending your video into the meeting.
- Click  to select a different camera, microphone or speaker during the meeting.
- Click  to maximize the selfview window.

Call controls

These controls are displayed at the bottom of the page. They will disappear when the mouse is not in use. They will reappear when the mouse is moved.

- Click  to disable your microphone so others cannot hear you in the meeting. The icon changes to red. Click again to enable your microphone.
- Click  to share your screen or an application. Choose a monitor or application then click share. All meeting participants will be able to see the content you are sharing.

- Click  to leave the meeting.
